DEAN’S MESSAGE

The College of Law works diligently to enhance its programs and extra-curricular activities to ensure students receive the highest standards of quality education. Our innovative curricula are designed to meet the needs of today’s marketplace and to prepare students to pursue graduate studies.

The college also assigns a great deal of importance to developing the professional skills of our students by expanding access to practical applications of the law. For instance, legal internships with international law firms provide an opportunity for law students to hone their skills. To this end, the College of Law has several memoranda of understanding with American, British, and Canadian law firms.

In addition to the Bachelor of Law degree, the college offers three Master’s programs and is currently working on other specialized degrees focusing towards a doctoral program.

Our distinguished faculty is composed of scholars who are renowned nationally and internationally for their academic excellence and contributions to the field. Equally important is the fact that they are also enthusiastic student-centered teachers and mentors who enjoy providing friendly, personal guidance to the students.

The College of Law regularly participates in international competitions such as the Philip Jessup International Law Moot Court in Washington, DC; the Monroe E. Price Media Law Moot Court in Oxford, England; the Willem C. Vis International Commercial Arbitration Moot Court in Vienna, Austria, and the ICC Moot competition in Hague.

I invite you to explore our website and encourage you to visit us. I trust that once you discover our state-of-the-art facilities, see our high-tech teaching technologies, meet our motivated students, accomplished faculty and dedicated and supportive staff, you’ll decide that UAEU is the place for you.
